

Consent to the processing of personal data

In connection with your participation in a research project at Aarhus University, we require your consent to process your personal data pursuant to the rules of the General Data Protection Regulation.

Title of the research project: Exploring leaders' health disclosure at the workplace. The research project aims to understand why and how organizational leaders disclose or conceal health-related information in the workplace, and what consequences they experience or anticipate.

By understanding how leaders navigate health disclosure, organizations can develop more informed approaches to support leaders' health and well-being at the workplace. As well as fostering a workplace culture in which leaders feel able to open up about their health without fear of negative consequences.

By signing, I consent to Aarhus University using my statements, including:

- 1) General personal information: Name, age, position, workplace, and statements in interviews.
- 2) Sensitive personal information: Information about physical and mental health, as well as any affiliation with a particular trade union.

How do we collect this information?

- We collect this information through (interviews and field observations)
- The health-related information is only obtained directly from participants. No third party is involved.

Your rights:

- I can withdraw my consent at any time by contacting:
 - PhD Student: Jeanine Schweiker
 - Email: jeanine.schweiker@mgmt.au.dk
 - Telephone: +45 44 18 44 67
- The processing of my personal data up until the time I withdraw my consent is lawful. This also means that withdrawing my consent does not affect material that has already been printed.
- I also confirm that I have read and understood pages 2-4 of the statement, about how Aarhus University processes my personal data.

Name: _____
[To be completed in capital letters]

Date and signature: _____

Giving your consent is **voluntary** and **you may at any time withdraw your consent to the processing of your personal data** by contacting Jeanine Schweiker (PhD Student).

Withdrawing your consent will not affect the lawfulness of any processing of your personal data already conducted as part of the project prior to withdrawal. Your personal data will therefore continue to be included in the work completed as part of the project prior to your withdrawal.

What you need to know about Aarhus University's processing of your personal data

Here you will find information about why and how Aarhus University processes your personal data.

1. Who is the data controller?

Aarhus University (AU) is data controller for the processing of your personal data. Our information:

Aarhus University
Nordre Ringgade 1
8000 Aarhus C
CVR-no.: 31119103

Aarhus University has a Data Protection Officer. You can contact our Data Protection Officer at dpo@au.dk.

If you have any questions about the research project, including participation and processing of personal data, please contact Jeanine Schweiker, PhD fellow, Jeanine.schweiker@mgmt.au.dk, +45 44 18 44 67.

2. What is personal data?

Personal data is any information that directly or indirectly can be attributed to you. This can, for example be your name, your age, but it can also be a lot of information that, when linked to other information, tells something about you, for example your address combined with information from a public register.

3. Why do we process personal data about you?

As a university in Denmark, we have an obligation to conduct research. In order to conduct research, we often need to process personal data. In the research project “The causes and consequences of leaders’ health disclosure at the workplace”, we process personal data to better understand why organizational leaders disclose or conceal a health-related vulnerability to followers, peers and their own supervisors, and what consequences follow.

We also process your personal data for the purposes for which you consent on page 1.

4. What information do we process about you?

We will process the following categories of personal data about you:

- General personal data: your name, age, gender, contact details, workplace affiliation, job title, hierarchical rank and other background information you provide in connection with the project
- As the project concerns health disclosure at the workplace, sensitive personal data related to your previous or current mental or physical health information will be processed.

How will we collect the information?

- We collect this information directly from you, via interviews, conversations, correspondence, and observations carried out as part of the research project
- The data is obtained only from you (as the individual data subject) and not through any third party.

5. What is the legal basis for processing your personal data?

The processing of personal data requires that there is a legal basis for the processing in the data protection rules or other legislation. We process your personal data on the basis of the consent you have given to the processing of your personal data.

The legal basis is GDPR article 9(2)(a) and 6(1)(a). You have the right to withdraw your consent at any time. If you withdraw your consent, Aarhus University will stop processing your personal data. To withdraw your consent, you can contact PhD-fellow., Jeanine Schweiker (see contact information above).

6. How long do we process your personal data?

We will, as a general rule, process your personal data for the duration of the PhD project and for up to two years after its completion, corresponding to a total storage period of up to five years.

This retention period indicates that the data may remain necessary not only for completing the PhD project but also for subsequent research activities. This includes preparing academic publications, potentially continuing the research in a postdoctoral context, teaching and knowledge exchange activities (e.g., workshops and presentations), and broader dissemination of findings through public communication (e.g., reports, debate articles, and op-eds).

In addition, the data may be required for documentation and verification of the research findings in accordance with the principles of responsible research practice and applicable legal requirements.

When your personal data is no longer necessary for these purposes, it will be anonymized or deleted.

When assessing how long it is necessary to retain your personal data, we take into account the need to fulfil the research purpose, ensure proper dissemination of results across academic, educational, and public contexts, and document the validity and integrity of the research for a period after completion.

7. Who do we share your information with?

Your personal data will primarily be processed by the researcher responsible for the project at Aarhus University.

Where relevant, your personal data may be shared with relevant researchers affiliated with the project, including supervisors and co-authors, for the purposes of conducting, analyzing, and disseminating the research.

In such cases, the data will, as far as possible, be shared in pseudonymized or anonymized form, and access will be limited to what is necessary.

Your personal data may also be shared with data processors acting on behalf of Aarhus University, for example in connection with secure storage or transcription services.

In connection with research collaborations or research stays at other universities, your personal data may be transferred to collaborating researchers or institutions when necessary for the research project. Such transfers will take place in accordance with applicable data protection rules.

To ensure continuity of research when researchers change institutions/ workplace, your personal data may be disclosed to other research institutions in Denmark or the EU. This will only be done when appropriate data agreements are in place.

We do not share your personal data with others unless this is necessary for the research project or required by law.

8. What are your rights?

According to the General Data Protection Regulation, you have a number of rights when we process your personal data. Your rights are limited when the processing is carried out for research purposes. Therefore, you can read below what rights you have in connection with the processing of your personal data in research, and what rights you have if you consent to the processing of your personal data for purposes other than research.

Rights in research

- You have the right to have your data erased if the erasure of your data does not make it impossible or seriously impede the achievement of the research purpose.
- In the event that we erase your personal data, we are obliged to notify any recipients of your personal data of the deletion, unless this proves impossible or is disproportionately difficult.

Rights in areas other than research

- Right of access - In certain cases, you have the right to see the personal data that we process about you and to receive a number of information about the processing.
- Right to rectification - You have the right to have inaccurate/incorrect personal data about you corrected.
- Right to erasure - In certain cases, you have the right to have your personal data deleted.
- Right to restriction of processing - In certain cases, you have the right to have the processing of your personal data limited to the storage of the personal data.
- Right to data portability - You have the right to receive your personal data in a commonly used and machine-readable format and to request that the personal data be transferred from one data controller to another.
- The right (in certain cases) not to be subject to an automatic decision based solely on automated processing, including profiling.

You can assert your rights by contacting PhD fellow Jeanine Schweiker (see contact information on p.2)

9. How can you complain?

The processing of your personal data and your trust are important to us. Therefore, we hope that you will contact us if you have any questions or are unhappy with the way we process your information.

If you nevertheless wish to complain about our processing of your personal data, you can contact the supervisory authority in Denmark:

Danish Data Protection Agency (Datatilsynet)
Carl Jacobsens Vej 35
DK-2500 Valby

10. If you change your mind

Giving your consent is entirely voluntary. It is your choice, and you should therefore read this document carefully before deciding whether you wish to participate.

You may withdraw your consent at any time. You can do this by contacting PhD-fellow., Jeanine Schweiker (see contact information on p.2).

If you withdraw your consent, we will stop processing your personal data. However, you should know that the processing we have carried out up to the time when you withdraw your consent is lawful. You should also be aware that in rare cases your personal data will continue to be processed, even if you withdraw your consent. This applies, for example, to published material.
